

Going to the

Grocery Store

Today, we are going to the grocery store. First, we will get into our car and drive to the store.

When we get there we will get a grocery cart or basket to fill with food.

Then we will walk up and down the aisles picking out food and other items on the list.

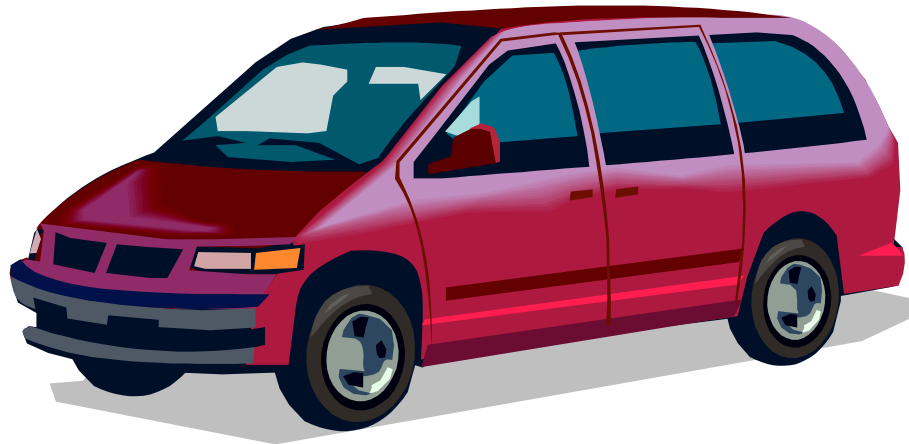

There might be lots of people there, bright lights, and loud noises.

While we are in the grocery store there is no running and no yelling.

When we are done getting all of our groceries we will go to the checkout lane and pay for the groceries.

Then, we will put our groceries in the car and drive home.

THE END
